MADE TO PERFORM IN YOUR BATHROOM

ILLUMINATED MIRRORS

## ABOUT

---

Combining the latest in lighting technology with the latest design directions, our illuminated mirrors are masterpieces in their own right. Featuring the newest dimmable LED lights, you can depend on an amazing 60,000 hours of continuous use, with the lowest energy consumption possible. Our backlit mirrors will add 'wow' to your bathroom and brighten up even the dimmest 'smallest room in the house'.

The versatile mirror comes fully assembled and unites the functions of make-up lighting, room lighting, mood lighting, demister (prevents condensation on the mirror during and after a shower) and sound system in an elegant design.

The front light, in natural and warm white, equipped with a memory function offers excellent colour trueness that exceeds the market colour rendering indexes making it very suitable as a make-up light. All functions are controlled via touch keys that are integrated into the mirror.

The easy-to-install, IP44-rated mirror comes fully-assembled with a mounting track for installation. With the option to rotate the mirror by 90 degrees, it's the perfect fit for any interior decor or style.

This product communication takes you through the details of DEXOVIT Light Mirror as well as its product and technical specifications.
